IAM...It's about Time...

Over 600 IAM users from Los Angeles to Sydney have reduced their batch elapsed time and have improved their online response time from 20% to 80%.

“Our workload has increased significantly which impacted our SLA with our offices outside the USA. IAM reduced our batch VSAM runs by more than 70%.”

“We have a large VSAM batch application that is run by an outsourcing company. IAM allows us to cut our monthly charges for running this application by more than 60%.”

FATSCOPY
The only
Conversion &
Stacking tool
you will need!

- ✓ Tape Media Conversions
- ✓ Tape Copying/ Stacking and Migration
- ✓ Secure Data Erasure

“Migrated with FATSCOPY 9000 3490E tapes and 1000 9840 tapes to a Virtual Tape System (VTS). This was about 15TB's of data and was done as background jobs that were run over a 6 week period of time and did not cause any downtime.”

“I have a STK 9840 Cartridge with 2800 labels on it, but an IEHINIT was run on this tape from an LPAR without CA-1. With FATAR, we were able to recover 2799 files. This data would have taken us many months to try and recreate.”

Come See What INNOVATION has in the Pipeline...

INNOVATION SHARE
