

## Non-Disruptive Migration

“The business units requirements that rely on Linux volumes have made it very difficult for us to schedule outages to move their systems. FDRPASVM now allows us to move them non disruptively like FDRPAS does for our z/OS volumes.”

*A Large Financial Company*

### INTRODUCING...

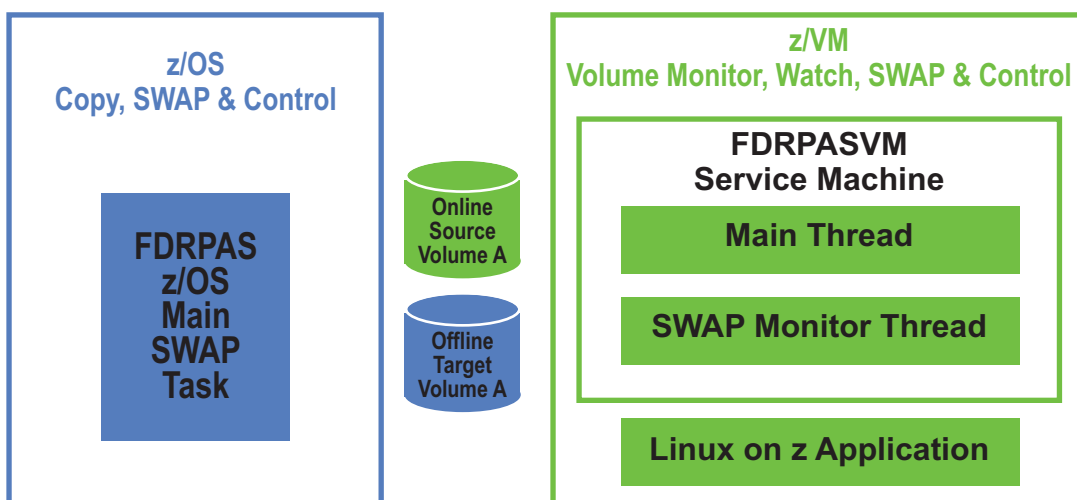

## FDRPASVM Version 5.4 Level 80

### Available January 2014

Now brings all the benefits of FDRPAS to migrating your z/VM and Linux for System z volumes.

- FDRPASVM monitor tasks allow z/VM systems to stay up and available.
- FDRPASVM allows...
  - Users to swap active z/VM user volumes
- FDRPASVM tracks all updates...
  - Made by z/VM and virtual machine guests
- FDRPASVM enables non-disruptive migration of volumes containing...
  - z/VM mini-disks, full pack mini-disks, and volumes dedicated for CMS users
  - Linux for System z and other guest's file systems

### FDRPAS for z/VM Components

- FDRPASVM is an option to FDRPAS for z/OS volumes but can be licensed with or without licensing FDRPAS for z/OS.
