

Join us for a Lunch & Learn *Discussion.*

FDRPASVM DASD Migration Software Operations and Live Demo...moving a running SSI 6.3 system, with SYSRES, Page and Spool volumes, from one set of DASD to another, without disruption.

Mehdi Fadaifard,
Product Manager for z/VM & Linux

TUESDAY, MARCH 1st @ 12:30 - 1:30 PM, ROOM 302B

RESERVE NOW! E-MAIL: sales@fdrinnovation.com or FAX: 973-890-7147
LIMITED TO THE FIRST 60 REGISTERED!

- I WILL ATTEND THE LUNCH & LEARN: TUESDAY, MARCH 1, 2016 @ 12:30 - 1:30 PM, ROOM 302B
- I WILL NOT BE ABLE TO ATTEND THE PRESENTATION(S). PLEASE SEND ME HANDOUTS FOR:
- Lunch & Learn Presentation Vendor Sponsored Presentation Technical Session

FDR/UPSTREAM, the ONLY File Level z/OS Data Protection Solution for Linux on z Systems.

TUES. MARCH 1, 2016 • 1:45-2:45 PM, ROOM 225D
Additional Details: This session will dive into New FDR/UPSTREAM features that highlight the z/OS mainframe as a great performance solution. Synthetic Differential, a significant Enhancement to INNOVATION's Synthetic Full Merge algorithm, introduces the Merge to Master concept that substantially reduces back-end tape processing, CPU usage, and wall clock time while not impacting the level of protection.

Technical Session 18740
Migrate running Linux and z/VM systems to new DASD without disruption.

WED. MARCH 2, 2016 • 4:30-5:30 PM, ROOM 221A
Additional Details: Moving z/VM and Linux systems to new DASD typically takes a disruptive outage. However as your Linux on z Systems and z/VM workloads grow in importance, there is a requirement these systems remain in "Continuous Operation". Learn how you can migrate Linux (SYSTEM) on z/VM (CP-owned) volumes to new storage systems, while these systems remain up and continue running without disruption.
